<b>Additional information</b>	<p>I am uncertain whether to choose 2,5 or 3 completed years for my current study. As of the moment of writing (23-03-2024) this is 2,5 completed years, but when I shall be in Finland it is 3 years. I hope this clarifies my answer.</p> <p>Furthermore, in my motivation letter I talk about work in Finland, but these plans have been scrapped. In order to work in Finland, I would need more paperwork and it would be generally more difficult. It is still in my motivation letter, because this is the one I have sent to my home institution and I do not know if any mismatch is allowed between that one and the one I enter here. In short, I will *not* work in Finland.</p>
